A: The error message you refer to, Can't sign in because you've exceeded the usage allowed is most probably related to a missing game. If you're playing GTA V and keep getting the error, download and install the game via Steam as per GTA V support page. If it's not, it may be a bug that only appears when the game that uses live is not correctly installed. This error message does not by any means mean that your account is banned, just a server misbehaving. Here you may find some help: [error 183? TrueIs - 28](#)
